

Multifuel &
Woodburning Stoves

Multifuel & Woodburning Stoves

There is nothing more relaxing or comforting than the warm, welcoming glow of a real fire.

Broseley Fires is a family-run company with more than 30 years' experience in designing, developing and manufacturing home heating appliances. Our dedicated technical and design team has a passion for creating stoves which combine tradition and elegance with efficiency.

Broseley Fires has become a household name in the stove industry, manufacturing a range of multifuel, woodburning, gas and electrical stoves, as well as distributing pellet boilers and range cookers.

It is essential that you obtain the services of a heating engineer to calculate the heat demand you require before choosing your appliance.

York Petite & Midi

Cast Iron Multifuel Stoves

The York Midi and Petite stove are the smallest traditional stoves in our range. Although our smallest appliances, these products still offer primary and secondary air control, with a preheated airwash system. These products are also available in electric and gas versions.

- Cast iron construction
- High efficiency
- Primary & secondary air controls
- Optional top and rear outlet
- Pre-heated air-wash coupled with primary air features
- Cast Iron fire bricks and baffle
- Alternative door designs available
