Dovre takes its company name from a range of Norwegian mountains, and has more than 60 years' experience in manufacturing stoves and fireplaces for the harshest of Arctic winters.

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be moulded into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Over the decades, Dovre's product range has been developed and refined continuously. Today, its woodburning and multi-fuel stoves offer advanced cleanburn technology for improved combustion efficiency and care for the environment. Its airwash systems help keep the door glass clean, whilst there are also many models fuelled with the convenience of gas or electricity.

Wood is the better fuel in environmental terms as the amount of carbon dioxide released into the atmosphere is approximately the same as that absorbed by the tree during growth. It is also a renewable resource, particularly when derived from plantations and cultivated woodland. For optimum results, we recommend logs should be seasoned for 2 years or more to achieve a moisture content below 20%\*. This will not only give up to twice the output of freshly felled timber but help avoid a build up of tar in your flue. Furthermore, if you can obtain hardwood logs this is better still, as they will have greatly increased calorific value of softwoods for the same volume.

Whatever your choice - wood, multi-fuel, gas or electric - your Dovre stove or fireplace will be rugged, reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

#### Warranty information

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas & electric 'engines' used in stoves and fires. The continuation of the warranty is dependant on your appliance being serviced by an appropriately qualified person 12 months after installation and annually thereafter. Please note, these warranties exclude certain consumable and naturally wearing parts such as grates, baffles, firebricks and glass. Full details are on our website at [www.dovre.co.uk](http://www.dovre.co.uk)

#### EXPERT RETAILER NETWORK

We take great care to ensure that our stoves and fireplaces are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will enable you to see a selection of models locally in their showrooms, often fully operational; discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design; and ensure that you select the most appropriate product for your home. These retailers will also be able to advise on or assist with the installation process as well as help provide any after-sales support and servicing of your appliance that you may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from nationwide online sales and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Further, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

\* All efficiencies quoted in this brochure are for seasoned wood with a moisture content of less than 20%.

Dovre 250CBW with short leg option

# 250

## MULTI-FUEL & WOOD STOVES

✓ APPROVED FOR SMOKE CONTROL AREAS

The Dovre 250 multi-fuel is designed to suit a huge range of applications from a cottage kitchen to a modern town-house living room, especially as it is approved for smoke control areas. It has a large glass door panel and ornately cast side panels both adding to the visual appeal. Manufactured from only premium grade cast iron, the 250 is at home whether burning wood (logs up to 30cm long may be used) or a variety of solid fuels, and is equipped with a sophisticated airwash system to keep the door glass cleaner. Matt black woodburning and woodburning/smokeless fuel versions with cleanburn for improved heating efficiency are also available. Shorter legs are an option on the 250CBW model.

Dovre 280 Gas conventional flue version with coal-effect fire

## 280 GAS STOVES

An all-new model, the 280 Gas blends Dovre's pedigree in casting with the latest gas flame technology. So the fire not only looks highly realistic but also provides you with effective and controllable warmth. There are two distinctive models: conventional flue with coal-effect fire or balanced flue with log-effect fire – and both even have the option of remote controls to allow you to adjust the flames and heat from the comfort of your armchair.

All cast iron construction ■

Conventional flue version with realistic coal-effect fire ■

Balanced flue version with realistic log-effect fire ■

Colour matched enamel flue pipe also available ■

Optional remote controls ■

High Efficiency: up to 78% ■

Maximum heat output: 3.6kW (CF)/3.3kW (BF) ■

Piezo ignition system requires no electricity supply ■

Top or rear flue exit: 125mm (CF)/152mm (BF) ■

LPG and Natural Gas versions available ■

Automatic safety shutdown in the event of pilot light failure or flue blockage ■

Weight: 50kg (CF)/54.4kg (BF) ■

# 280 ELECTRIC STOVES

If you do not have a chimney or want to locate a stove in a space where it would be difficult to install a flue then the electric version of the 280 could be the answer. Once plugged in to a normal 13amp socket, you simply use the remote control to turn it on or off, adjust the heat between the 1kW or 2kW settings or to select one of 3 flame brightness levels using the unique VeriFlame™ technology. The additional option of a subtle blue flame effect on the highest level makes the stove's 'log' fire one of the most authentic available. It truly is real fire ambience at the press of a button!

- All cast iron construction ■
- Exceptionally realistic log-effect with hand painted fuel bed and logs ■
- Choose from 3 brightness levels using unique VeriFlame™ technology ■
- Flame effect can be operated with or without heat output ■
- High Efficiency: 99% ■
- Discreetly concealed fan heater with 1kW and 2kW settings ■
- All functions operated from remote control so no bending ■
- Requires no flue, hearth or chimney ■
- Plugs into standard 13amp socket ■
- Safe to use in most locations around the home or conservatory ■
- Can be moved from room to room ■
- Weight: 50kg ■

## MULTI-FUEL STOVES

✓ APPROVED FOR SMOKE CONTROL AREAS

The Dovre 500 is a masterpiece of casting proficiency and up-to-date technology. Not only does it offer classic stove appeal but it also features a separate ashpan door, for easier removal of ash, and a choice of four different versions. The multi-fuel model is available with either a fixed grate or a riddling grate. The woodburner, on the other hand, incorporates a special cleanburn system that is so effective it has been approved by the Department of the Environment for use in smoke control areas, and has the added option of a lattice door.

Dovre 500 Electric with lattice door

# 500 ELECTRIC STOVES

No fuel to store, no cleaning out needed, just the enjoyment of a glowing coal-effect fire and flickering flames. A 2kW fan-assisted heater built into the base of the Dovre 500 Electric provides plenty of warmth whilst requiring no chimney. This means the stove can be sited anywhere there is a suitable wall socket and it can even be moved from room to room. So you can now have a real stove anywhere.

- All cast iron construction ■
- Superior fire effect with glowing coals and flickering flames ■
- Fire effect can be used independently of heating ■
- Safe to use in most locations around the home or conservatory ■

# 1CB

## ASTROLINE 1 WOOD STOVE

With superb modern styling, the Astroline 1CB takes the design of cast iron stoves into the 21st Century. The high elevations not only represent a style statement but they also permit extra heating capacity, as logs up to 37.5cm in length can be positioned in a 'wigwam' shape and provide up to 10kW of warmth; ideal for larger, open plan living spaces.

Further, the Astroline 1CB features all of Dovre's latest cleanburn technology, including a secondary combustion system to reduce soot emissions and to improve fuel efficiency, whilst a powerful airwash system helps to keep the huge ceramic glass panel clean. Together, they create exceptional flames and a wonderful view of the fire.

## 2CB ASTROLINE 2 WOOD STOVES

Retaining the same firebox characteristics, heat output and high efficiency of the original 2CB, the Pedestal and Wood Store variants offer two more styling options to attract the eye and make a bigger impact in the room. Whether for taller inglenooks or to stand proudly in the centre of a wall, the stylish 2CB stoves have the versatility to match and punctuate your own contemporary tastes.

For draught reduction, both models have a built in outside air connection which, if required, can be used to draw combustion air directly into the appliance from outside rather than from the room.

Astroline 3CB with pedestal

# 3CB

## ASTROLINE 3 MULTI-FUEL & WOOD STOVES

With sleek and contemporary styling, Dovre's new Astroline 3 not only offers you an exceptional view of the fire but also a choice of two distinctive variants as well as either woodburning or multi-fuel versions of each. The state-of-the-art cleanburn combustion system provides stunning flames within the firebox and these can be seen from more than 180° thanks to the angled glass side panels and the large main window. Combustion and efficiency is also aided by an outside air connection which can reduce draughts within your room.

Choose from the Astroline 3CB with a pedestal or, alternatively, the design with a 'wood store' base.

- All cast iron construction
- Woodburning or multi-fuel versions
- Cleanburn and Airwash systems
- Outside combustion air facility
- Maximum heat output: 10kW
- High efficiency: up to 75%
- Top or rear flue exit

## ASTROLINE 4 MULTI-FUEL & WOOD STOVES

Similar in looks to the Astroline 3CB, this model is also available in either woodburning or multi-fuel versions and with a choice of pedestal or wood store bases.

Featuring an extensive front window and glass side panels, you are able to enjoy to the full the exceptional swirling flames produced by Dovre's very latest cleanburn system. An external combustion air facility also helps to reduce draughts in the room as well as improve heating efficiency – and with up to 10kW of warmth that's a very cosy thought for any winter's night!

# 2520 CASSETTE FIRE

This large bow-fronted cassette features a sophisticated airwash system to ensure you enjoy a superbly panoramic view of the fire. Although a dedicated woodburner, the multi-fuel basket option also allows you to burn smokeless fuels should you wish. Whichever your preference, the 2520 will heat your room with a gentle stream of warm convected air or, by using the integral electric fans, a powerful flow of thermostatically-controlled heat.

- All cast iron construction
- Woodburner with multi-fuel option
- Cleanburn and airwash systems
- Fan-assisted convection system with thermostatic control
- Maximum heat output: 11kW
- High efficiency: up to 80%
- Flue diameter: 150mm
- Weight: 190kg

Dovre 2300CB as a built-in fireplace

# 2300CB FIREPLACE

As a dedicated woodburner the Dovre 2300CB is equally at home as a built-in fireplace with a sophisticated convection system or in a dramatic inglenook. Open the doors and enjoy the full ambience of a real fire, close the doors and a sophisticated airwash system keeps the glass cleaner for a full view of the fire. With these features and the inclusion of an aerated baffle for greater efficiency and lower emissions, the 2300CB takes crackling log fires into a new era.

## PROFESSIONAL XQ CHIMNEY SYSTEMS

Stovax (Dovre's distributor in the UK and Republic of Ireland) also offer a comprehensive range of stove & fireplace chimney systems, the Stovax Professional XQ collection. Crafted from 304L grade stainless steel for a durable outer finish, the fully sealed components offer water tight protection for the insulation within.

With innovative decorative options, the ability to specify a colour for your system and with a host of technical advancements such as their Twist-Lock system, the Professional XQ range provides an attractive, versatile and reliable solution for your flue system. Furthermore, the Professional XQ range carries a 10 year conditional warranty offering complete peace of mind.

For further information or to request a brochure, simply contact your local retailer or visit [www.stovax.com/chimneysystems](http://www.stovax.com/chimneysystems).

Astroline 2CB with Pedestal.  
For Wood Store version, please see pages 36 - 37.

# ACCESSORIES & STOVE CARE

## Care Of Your Stove or Fireplace

To help you get the best performance from your stove or fireplace and keep it in good condition, inside and out, Stovax (Dovre's distributor in the UK and Republic of Ireland) offers a wide range of cleaning and maintenance products. Stovax also supply a wide variety of fireplace accessories.

Your Dovre retailer will be able to give you full details or you may view the complete range at [www.stovax.com](http://www.stovax.com).

## Fireplace, Stove & Hearth Accessories

Included in the brochure is an outstanding selection of fireplace and stove tools. Expertly crafted with a variety of styling options and available in wrought iron, black, brass and chrome finishes, this exquisite range of accessories comprises individual tools alongside complete companion sets. There are also a number of classically designed pails, scuttles and holders for your coals, logs and kindling – functional and stylish accompaniments to your Dovre stove or fireplace.

## Contemporary Steel Log Holders

For more modern interiors, Stovax have developed a range of contemporary log holders in matt black steel. These are highly attractive and a superb pairing to Dovre's range of contemporary Vintage and Astroline series stoves.

## Ironworks

The latest addition to the accessories range, Ironworks is an outstanding collection of exceptional quality wrought iron log holders and fire tools, expertly crafted to timeless designs; truly the perfect complement to your Dovre woodburning or multi-fuel stove.

## Product Improvement & Guarantee

Dovre reserves the right to amend any specifications herein or to make any product design changes. Please note that, due to studio lighting and the limitations of the printing process, colour reproduction of enamel finishes may vary from actual product. Please consult your Dovre retailer for more accurate colours.

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas & electric 'engines' used in stoves and fires. The continuation of the warranty is dependant on your appliance being serviced by an appropriately qualified person 12 months after installation and annually thereafter. Please note, these warranties exclude certain consumable and naturally wearing parts such as grates, baffles, firebricks and glass. Full details are on our website at [www.dovre.co.uk](http://www.dovre.co.uk)

## CORRECT INSTALLATION

A HETAS approved installer should undertake a site survey prior to purchase and must install any Dovre stove or fireplace. Your Dovre retailer will be able to advise on this. You may view/download complete installation instructions from our website: [www.dovre.co.uk](http://www.dovre.co.uk)

\* Legs shown on these models are for use only when building the appliance into a fireplace. They are not intended for freestanding applications such as inglenooks.

All fire and flame photography has been taken from genuine products; however, the exact appearance of the flame picture for any appliance will vary depending on the nature of the flue type, installation surroundings, local geographical features and the way in which the appliance is operated. Some of the room sets in this brochure have been created for aesthetic purposes. When designing your own installation, please observe the minimum distance to combustible materials as stated in the installation instructions.

**Please note:** The operation and appearance of gas appliances depends on variable factors such as the gas pressure supplied.
